

Why aren't YOU using AI?

Patrick Parno

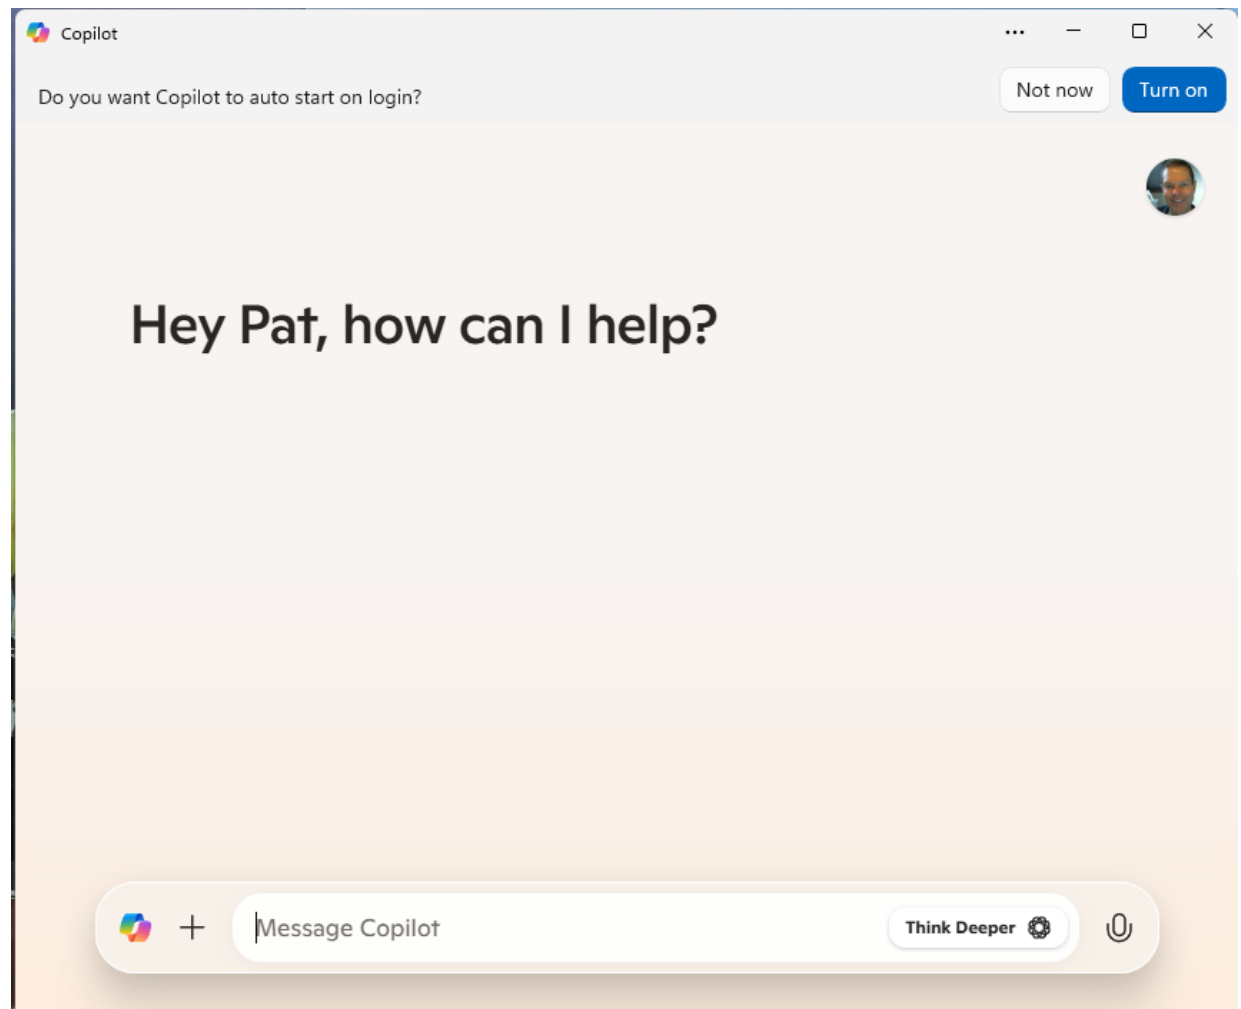

Artificial Intelligence - AI

- I almost never have a need for “google” anymore
- AI is not infallible: it draws from the internet
 - “footnotes” showing from where it got the information
 - Ability to ask follow-up questions
- Best AI’s to use for general use
 - **PC - CoPilot** (see icon on bottom bar)
 - **Mac or iPad** - download **ChatGPT** 
 - **Android** –download **Gemini** 

What does it
look like?

ANYTHING
you ask
google is
easier in AI

What does this radiologist report mean?

There is mild to moderate chondral thinning noted along the peripheral margin of the left acetabulum with linear fluid signal extending into the substance of the acetabular labrum within the anterosuperolateral quadrant suspicious for a small focal linear pattern tear. There is a cam bump noted along the peripheral margin of the left femoral neck. Small hip effusion present.

I want to go to Portugal. What cities would you suggest, and devise a 14 day itinerary for me including hotels, restaurants, and transportation options.

I am going to buy a guitar and am considering the Taylor 414e and the Gibson J45. What do you think and are there others in this class I should consider?

ANYTHING
you ask
google is
easier in AI

I currently ski a lot in the winter and bike in the summer but would like to add some weights to my fitness program. Can you design a six month program for me?

My 4 and 6 year old grandkids are coming for a visit for a week and I am not sure how to fill the time up. Do you have any suggestions? I live in Canmore, Alberta.

Trump has introduced tariffs on Canadian goods. How can I fight back?

Conclusion

Windows PC

Use CoPilot – built in and same engine as ChatGPT

Mac or iPad

Download ChatGPT, CoPilot or Gemini app

Android
Phone or
Tablet

Download ChatGPT, Gemini or CoPilot app

And then there is fun....

make a limerick
about the 'it doctors,
canmore, and life-
long learning'

Great, now draw a
picture about that!
